# The Spill Prevention & Response Plan

A Spill Prevention & Response Plan (SPRP) describes how a business will prevent and respond to a spill or release. The SPRP includes BMPs, chemical handling practices, safeguards, pollution prevention, and spill response measures that will be implemented to offset the risk of groundwater contamination. The Spill Prevention & Response Plan includes but is not limited to descriptions of practices related to:

- Site plan of the zoning lot
- Emergency contact information
- Best Management Practices
- Secondary containment
- Chemical storage
- Spill response supplies
- Employee training
- Engineering controls
- Equipment maintenance
- Waste disposal
- Signage

**For more information on developing a SPRP visit:**

<http://www.daytonwater.org/154/Source-Water-Protection-Program>

**Then click on: Spill Prevention and Response Plan Checklist for Businesses in Dayton Source Water Protection Area**

# OHIO EPA OCAPP: Office of Compliance Assistance & Pollution Prevention

OCAPP provides free and confidential assistance to Ohio businesses; focusing on the needs of small businesses to increase performance, and benefit the environment by providing:

- Free on-site compliance and pollution prevention assessments,
- Assistance with permit applications and forms to comply with Ohio's environmental requirements,
- Assistance with material reuse and recycling,
- Information regarding waste, water, and EPA regulatory requirements,
- Ways to identify and implement pollution prevention measures that can save money.

**For more information:**

**OCAPP: [www.epa.ohio.gov/ocapp](http://www.epa.ohio.gov/ocapp) and toll-free hotline (800) 329-7518**

## DATES **2** Remember

For a list of vendors that handle the disposal waste, call the Montgomery County Solid Waste District Recycle Hotline at (937) 225-4999.
